Reason Why Firefighter: I don't want to sit behind a desk in a suit and tie for the rest of my life. I want to do something that makes a difference in people's lives. I'm sure everyone says that, but in some cases, it's absolutely true. I have been wrestling for as long as I can remember; I have been pushing my body and my mind to (and in some cases past) its limits, and I want to continue to do so with the rest of my future. I want to be a part of a team, as well as part of something that truly means something to the community. I want to do something more than just what's expected, to leave a real mark on the world when I leave.

That having been said, I do want to one day be a paid firefighter. I hope to gain valuable work experience, as well as establish the foundations on which to build a future career.
